Tukuru Technologies Named One of Ingram Micro's Fastest-Growing SMB Channel Partners in the U.S.

World's Largest Technology Distributor Recognizes Tukuru Technologies Achievements and Success in Annual Ingram Micro SMB 500 List at Inaugural IMAOne Event in New Orleans #IMAOne2014

New York, NY, July 29, 2014 – Tukuru Technologies, LLC today announced it was named to the Ingram Micro 2014 SMB 500. The annual list recognizes the top 500 fastest-growing Ingram Micro U.S. channel partners serving the small and midsize business (SMB) market. Ranked at number 95, Tukuru Technologies expanded its business with Ingram Micro Inc. (NYSE: IM), the world's largest technology distributor, by 75 percent in the past three years.

Channel partners named to this year's SMB 500 list were identified at Ingram Micro's inaugural 2014 IMAOne event, held May 6-10 in New Orleans. As part of the more than 20,000 U.S. solution providers and MSPs who work with Ingram Micro's U.S. SMB Business Unit, these top-performing companies achieved a three-year compound growth rate of more than 42 percent.

Ingram Micro's annual SMB 500 list is developed in close collaboration with channel research services firm The 2112 Group, Ingram Micro's Business Intelligence team and U.S. SMB Business Unit. Criteria for selection to the list includes size, overall technology category revenue growth and innovation across SMB engagements.

"We are tremendously excited to be on this list for the third year running. It validates our strategic focus and highlights the success of our growing relationship with Ingram Micro," says Jacob Tukuru, president of Tukuru Technologies.

"The Ingram Micro SMB 500 is representative of solution providers who are focused on business excellence and recognize the value in teaming with Ingram Micro to deliver a superior customer experience and grow their business faster," says Jamie Ferullo, director of SMB sales, Ingram Micro U.S. "We congratulate this year's SMB 500 and applaud their success."

Performance metrics, trends, best practices and other key findings from the Ingram Micro 2014 SMB 500 list will be produced by The 2112 Group and noted on the Ingram Micro SMB 500 site: www.im-

smb.com/smb500. Additional information and research is available on 2112's *Channelnomics*, a news and analysis website dedicated to channel business trends.

“The channel partners who earned a spot on the 2014 Ingram Micro SMB 500 are growing at rates that are three to four times the channel industry average and well above the channel average for SMB-focused resellers,” says Lawrence M. Walsh, CEO and chief analyst of The 2112 Group. “The SMB 500 shows how consistent execution and collaboration with a technology distributor with broad resources and support mechanisms, such as Ingram Micro, results in accelerated growth performance and business strength.”
